## ELECTION DAY TUESDAY

Tuesday is election day, and it behooves every voter, man or woman, to get out and vote. Roy Precinct should cast at least 600 votes. We are publishing elsewhere both tickets, National, State and county, and we feel that you should get acquainted as far as possible with these men and vote for men and women in the State and County tickets, and not vote for politics alone. Either ticket has some good timber up for election, and persons that would make good State and county officers, and yet we must say there are men on the tickets that are far better fitter for other positions than county and State officers. We also believe that the next legislature will create a new county from this mesa, and we should elect men for our State Legislature who are in favor of creating the new County. We believe that every voter has a right to know where the State and county nominees stand on matters of importance to the Mesa, and those who have made known their stand and have come out openly on these matters are entitled to the voters' consideration.

We doubt very much if this precinct will cast many straight votes, but the votes will be for the best man and not simply because he is a Democrat or Republican, but on his past and present record as a man.

## PRESS PROMOTER OF AMERICANISM

The power of the press for good, its opportunities not only for acting as a stabilizer of public opinion, but its many accomplishments along this line, continue to be recognized and emphasized by men prominent both in public and in private life. The great war, which awakened many well-meaning persons to a realization of things which probably they had known before, but only passively admitted, did wonders in arousing the people of the United States to an appreciation of the day to day efforts and accomplishments of the press in making it possible for the war to be fought and won, gloriously.

Now that this awakening has come, and the war is history, it is interesting to note the continued willingness of those whose words carry weight to give credit to the men who make the newspaper, the magazine and the trade journal, the national necessities that they are.

Vice President Thomas R. Marshall, for example, known for always hitting right out from the shoulder, visualized this power of the public press in a talk before newspaper publishers of the country, when he said they could do more to stem the tide of unrest than all the laws Congress could pass. The Vice President, at the same time, suggesting that the newspapers should "sound the clarion call for justice, good government and rest among the people," praised the firm stand for Americanism already taken by the editors of the country as a whole.

## COSME R. GARCIA DEMOCRATIC NOMINEE FOR COUNTY CLERK

Mr. Garcia stands for clean politics and a square deal for every one with favoritism for no one. He is a man well fitted for the important office he is seeking and altho he was not a candidate at the County Convention but since he was nominated he wants to win in the race and asks for your suffrage

Vote for GARCIA you will never regret it.

F. L. Schultz and family and W. G. Johnson and family spent Sunday evening at the John Weisdorfer home southeast of town. Talking about eats, well, all we can say was that both editors were unable to work Monday. Reason, too much fried chicken, venison and other eats galore. Mr. Weisdorfer has just completed a fine 5-room home on his ranch, and also a large barn, and now has one of the finest ranch homes on the Mesa.

## DON R. CASADOS, DEMOCRATIC NOMINEE FOR COUNTY TREASURER.

Don R. Casados candidate for County treasurer and collector on the Democratic and Independent Republican ticket for Mora Co. was here at Roy this week in the interest of his candidacy

After completing this he accepted a position with Fred Harvey system in the capacity of assistant cashier at the Alvarado Hotel in that City.

He understands and recognizes the responsibilities of that important office and pledges himself in the event he is elected to discharge the duties of his office to the best of his ability. ## GETS A WHOPPER

Quite a number of hunters have brought in a fine deer so far this season, but the story of Barnett, Christ, Murdoch, Weisdorfer, et al., is the best so far reported.

The buck was killed about 15 miles southwest of Roy, and was one of the largest brought in so far, and the head looked like a pile of brush. The fellow weighed something like 450 pounds, and they say it took six men ten long hours to carry him from the canons. Practically all of the bunch are claiming the fatal shot and no doubt they are all right, as he had 11 shots through his head and body. However, to settle the matter, the honors were given to P. A. Barnett of Roy and Superintendent Crist of the Springer schools. Dr. Murdoch came in with the honor of carrying his part out of the canyons. Anyway, the whole bunch was happy, and Dr. Murdoch and Superintendent Crist and son went back to Springer Sunday with the best deer story you ever heard, and about 150 pounds of fine venison, and they promised to invite all their friends to dine with them when they got back home.

A. I. Burleson got the head, is having it mounted, and will have it as an ornament for the City Meat Market.

## J.W.BECK DEMOCRATIC and FUSION NOMINEE for REPRESENTATIVE

Hon. Joseph W. Beck, the candidate for Representative, needs but little introduction to the people of Mora county.

He was born in Mankato, Kansas, but the grasshopper made it necessary for the family to move, and so Joe spent his boyhood days in Lamar, Missouri.

When the call came for volunteers for the Spanish-American war he was one of the first to respond, enlisting as a private, and at the close of the war resigned as the youngest captain of the State of Missouri.

Shortly after the close of the war he came to Carlsbad, New Mexico, engaging in the hardware and furniture business for about two years. Sold out and came to El Rito in 1902, associating himself with the Sargents, and has had a most remarkable record as a successful business man in that section.

He served for seven years on the School Board of the Spanish-American Normal, located at El Rito, and it is through his efforts that the school stands there today, in spite of the influence brought to bear to close it or move it elsewhere.

When the late war broke out he offered his services to his country, but largely on account of a family of several small children he was not permitted to enlist. But the fact that he could not go to the front did not keep him from taking an active part in the work at home, and he gave without stint of his time and influence to put over the various Liberty Loan and Red Cross drives. He personally sold over one-half of all the W. S. stamps sold in Rio Arriba county.

A little over two years ago he closed out his business affairs at El Rito and moved to Roy, establishing the Beck Motor company, featuring Ford cars and tractors, and it is doubtful whether any other man has made more friends in Mora county during the past two years. One does not have to look for the reason for this, for there is that peculiar trait in Joe's makeup that invites friendship. He is a man who stands four-square to all the world—a believer in the "square deal" principle in business or politics—and while a Democrat in party principles recognizes the great fact, so often ignored by the politician that in public office a man must serve the people not a party.

That he will be elected to the office of Representative is an assured fact, for the citizens of Mora county, regardless of party affiliation, have offered him their loyal support, knowing the affairs of the county and the State will be safe in his hands.

He has a wide acquaintance throughout the State, and commands the respect and confidence of the business and political leaders with whom he comes in contact, and this means much in securing the necessary legislation for his constituents. His majority will be so large that the vote might as well be the maximum.
